

# NORDIC CAFE LINGUA FOR YOUTH

NEWSLETTER | AUGUST 2025

The NCLY project finishes in August 2025

Nordic Cafe Lingua for Youth project is coming to an end in August 2025. The project partners from Finland, Sweden and Iceland have each organised more than 10 workshops that have brought together young people, both local and migrant youth, to learn about Nordic languages and cultures through language cafes.

The international activities included a project meeting and training for language cafe tutors in Helsinki, Finland in the beginning of the project,

September 2024, and an international language cafe meeting in Kristianstad, Sweden, in June 2025. According to the feedback collected in the project, the young people, teachers and other participants involved in the workshops were very happy with the workshops and materials, which had greatly improved the knowledge of young people regarding the other Nordic languages and cultures, as well various topics related to culture and social issues.

The materials used in the language cafes are available on the project website at <https://nclyproject.com>, and they can be freely used for organising your own language cafes and events!
